1. Your Carbon, Waste and Water Reduction Assessment

Introduction

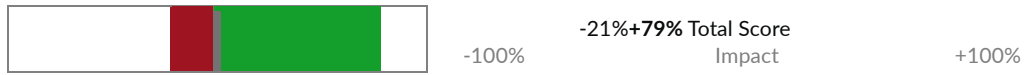

This assessment looks in-depth at a number of environmental aspects to understand how your organisation manages its significant environmental impacts.

The assessment compares your organisation's responses against industry standards, best practice and legislative requirements. It is designed to provide a benchmark of your organisation's performance in reducing carbon, water and waste-related impacts and, where appropriate, to provide recommendations on how our organisation can improve.

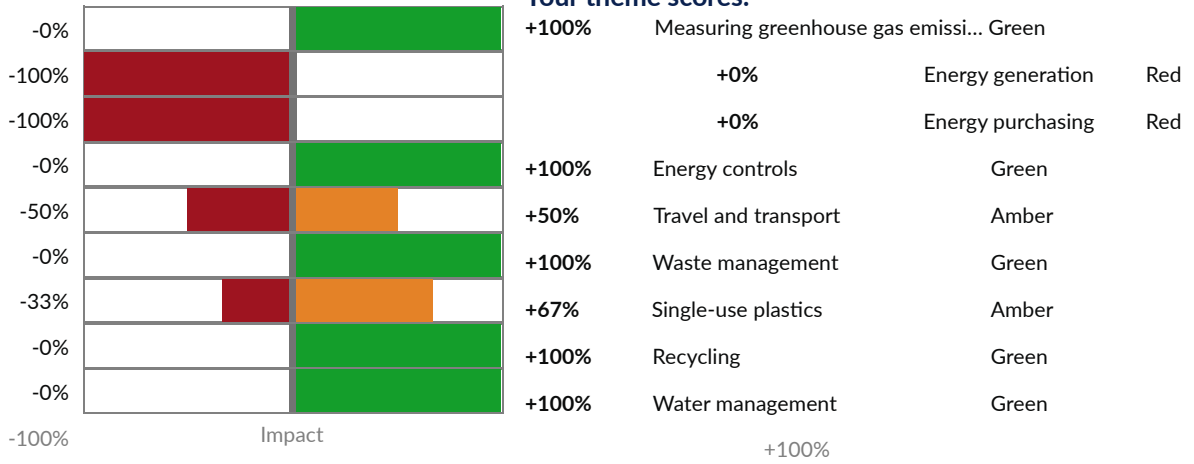

The assessment covers the following key areas:

- Measurement, monitoring and review of carbon emissions, waste management and recycling, and water consumption.
- Implementation of controls and initiatives to reduce scope 1, 2 and 3 emissions and other discharges into the atmosphere, land and water.

Your total score:

Your theme scores:

2. Carbon, Waste and Water Reduction Assessment Recommendations

1 question

40. Your organisation should consider purchasing renewable, low or zero carbon energy to reduce its carbon footprint

- Yes
- No
- Not Applicable

3. Carbon, Waste and Water Reduction Assessment Answers

4 questions

2. Does your organisation measure its greenhouse gas emissions?

- Yes
- No

3. Does your organisation use any of the following standards or methodologies to calculate its greenhouse gas emissions?

- DEFRA's guidance on measuring and reporting emissions
- Greenhouse Gas Protocol (including Corporate Value Chain Standard)
- The GHG Indicator: UNEP Guidelines for Calculating Greenhouse Gas Emissi...
- Carbon Trust: Carbon Footprint Calculator
- ISO 14065: 2013
- Greenhouse Gas estimate calculator/database
- ISO 14064: 2019
- Other

4. Does your organisation measure any of the following emissions? Tick all that apply.

- Scope 1 emissions: Direct greenhouse gas emissions from activities and sour...
- Total annual Scope 1 emissions in metric tonnes from the last 12 mo
100
- Scope 2 emissions: Indirect greenhouse gas emissions from purchased energ...
- Total annual Scope 2 emissions in metric tonnes from the last 12 mo
100
- Scope 3 emissions: Indirect greenhouse gas emissions which occur in your o...
- Total Scope 3 emissions in metric tonnes from the last 12 months
100
- Waste: Materials which are reused, recycled or composted, disposed of with
- Total annual waste generated in metric tonnes from the last 12 mon
115
- Water: Metered mains supply or water extracted on site through boreholes o
- Total annual water use in cubic metres from the last 12 months 90

5. Does your organisation measure any of the following Scope 3 emissions? Tick all that apply.

- Purchased goods and services
- Capital goods

- Fuel and energy related activities
- Upstream transportation and distribution
- Waste generated in operations
- Business travel
- Employee commuting
- Upstream leased assets
- Downstream transportation and distribution
- Processing of sold products
- Use of sold products
- End of life treatment of sold products
- Downstream leased assets
- Franchises
- Investments

2 questions

6. Does your organisation generate any of the following forms of renewable energy? Tick all that apply.

- Solar
- Wind
- Hydroelectric
- Biomass
- Geothermal
- Tidal
- Other

- Our organisation does not generate any forms of renewable energy.

6b. Would your organisation consider generating renewable energy in the future?

- Yes No

2 questions

7. Does your organisation purchase any of the following forms of energy? Tick all that apply.

- Renewable energy
- Low carbon energy
- Zero carbon energy
- Other

- Our organisation does not purchase any forms of energy.

7d. Would your organisation consider purchasing renewable, low carbon or zero carbon energy in the future?

- Yes No

2 questions

8. Has your organisation implemented any of the following controls to improve energy efficiency in the last 12 months? Tick all that apply

- An energy efficiency awareness campaign
- An energy audit
- A carbon reduction strategy
- Updated or implemented policies on energy efficiency
- Refurbished a building with energy efficient materials
- Installed a building management system
- Installed smart meter technology
- Upgraded or replaced inefficient equipment
- Installed energy efficient lighting

Other

Our organisation does not implement any controls to improve energy efficie...

9. Does your organisation follow the RICS SKA Assessment Rating Scheme for refurbishments and/or fit-outs?

2 questions

- Yes No

Our organisation does not control refurbishments and/or fit-outs.

3 questions

10. Do your employees travel to work by any of the following modes of transport?

- Walk
- Provide the percentage of employees at your organisation who walk
40
- Drive
- Provide the percentage of employees at your organisation who driv...
50
- Cycle
- Public transport
- Provide the percentage of employees at your organisation who take
10
- Other

11. Does your organisation implement any of the following travel measures to reduce carbon emissions? Tick all that apply.

- Car-sharing scheme
- Electric pool car scheme
- Electrical car charging ports
- Cycle to work scheme
- Secure lockup areas for bicycles
- Walk to work scheme
- Public transport scheme
- Working from home scheme
- Telephone/video conferences
- Other
- Our organisation does not implement any controls to reduce carbon emissio...

12. Does your organisation have a transport fleet?

- Yes
- No

10 questions

14. Does your organisation have a waste management policy that considers any of the following areas? Tick all that apply

- Environmental Bill 2020 waste targets
- Waste Hierarchy- The EU Waste Framework 2008/98/EC
- Waste reduction
- Recycling waste
- Specialised waste disposal
- Landfill waste
- Other
- Our organisation does not have a Waste management policy

15. Does your organisation have a waste register or system to monitor that waste has been reused or disposed of in a correct and lawful manner?

- Yes
- No

16. Does your organisation track the amount of waste it reuses?

- Yes
- No

17. Does your organisation track the amount of waste it recycles?

- Yes
- No

18. Does your organisation send any of the following types of waste to landfill or for incineration? Tick all that apply.

- Plasterboard
- Timber
- Packaging
- Metal
- Inert
- Ceramics
- Concrete
 - Cement
 - Plastics
- Paper and cardboard
- WEEE

- Our organisation does not send any of the following types of waste to landfill**

19. Does your organisation monitor its waste carriers to ensure that waste has been reused or disposed of in a correct and lawful manner?

- Yes
- No

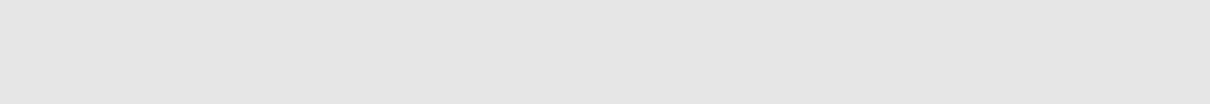

19a. How often does your organisation check that waste has been properly reused or disposed of?

- Monthly
- Bi-monthly**
- Quarterly
- Annually
- Other

20. Does your organisation provide recycling bins?

- Yes
- Please state the number of recycling bins provided at your organisat**
 -
 - No

20a. Does your organisation strategically position recycling bins to encourage recycling?

- 
- Yes
 - Please state where recycling bins are located at your organisation garbage room
- No

20b. Does your organisation post signage on the premises indicating the presence of recycling bins?

- Yes No

6 questions

21. Does your organisation provide any of following single-use plastic items? Tick all that apply.

- Cups
- Straws
- Cutlery
- Plates
- Food containers
- Other

- **Our organisation does not provide single use plastic items.**

22. Does your organisation use any of the following single-use plastic office supplies? Tick all that apply.

- Plastic envelopes
- Plastic film wrapping (i.e. for brochures)
- Plastic folders
- Other

- **Our organisation does not use any single-use plastic office supplies**

23. Does your organisation use any of the following packaging materials? Tick all that apply.

- Shrink wrap
- Bubble wrap
- Polystyrene
- Plastic bags
- Other

- **Our organisation does not use any packaging materials.**

25. Does your organisation recycle any single-use plastic items?

- Yes
- No

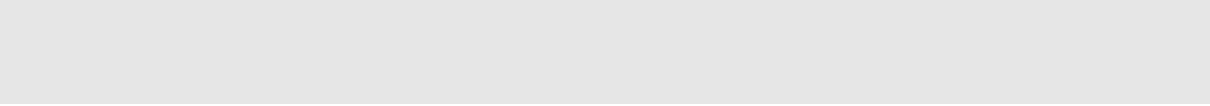

26. Has your organisation considered removing single use plastic items and replacing them with more environmentally responsible items?

- Yes
- No

27. Does your organisation provide any of the following reusable items? Tick all that apply.

- Cups
- Straws
- Cutlery
- Plates
- Food containers
- Other

- **Our
organi
sation**

does
not
provid
e
reusab
le
items.

2 questions

28. Does your organisation promote recycling?

- Yes
- No

29. How does your organisation promote recycling? Tick all that apply.

- Public awareness
- Signage and posters
- Presence of recycling bins
- Separating waste
- Litter-less' lunches
- Removal of take-out coffee cups
- Paperless and electronic system
- Other

3 questions

31. Does your organisation have a senior member of staff or manager responsible for water resource management?

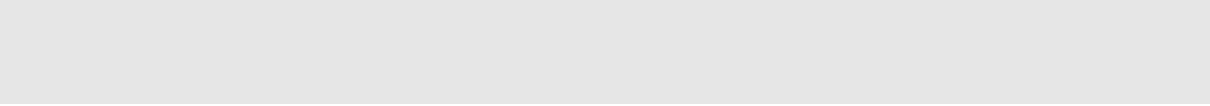

- Yes No

32. Does your organisation have a water management policy that covers any of the following areas? Tick all that apply

- Water consumption and over-exploitation
 - Water reduction
 - Waste water
 - Water scarcity and availability
 - Water management strategies
 - Future water availability
 - Water quality Other
- Our organisation does not have a Water management policy.

33. Does your organisation implement any of the following processes to control water usage? Tick all that apply

- Steps to eliminating groundwater contamination
- Regulated water usage
- Controls to reduce waste water
- Infrastructure to recycle water
- Closed water cooling system
- Rainwater or surface water harvesting systems
- Sub-meters to control water usage
- Smart meter technology
- Leak detection technology
- Appliances and technology to reduce water usage Other

Our organisation is unable to control water usage.
Our organisation does not implement any controls for water usage.

1 question

36. Is there is any additional information regarding your organisation's approach to carbon, waste and water that you wish to share?

No

Nakodar Lifesciences UK Ltd

Carbon Reduction Plan

Publication Date: 26 October 2025

Commitment to Achieve Net Zero

Nakodar Lifesciences UK Ltd is fully committed to achieving Net Zero greenhouse gas emissions by 2050, in alignment with the UK Government's Net Zero Strategy and Procurement Policy Note (PPN) 06/21.

We are implementing a structured approach to carbon management, focusing on: Reducing Scope 1, 2, and 3 emissions through efficient energy use and sustainable procurement. Transitioning to renewable energy sources and low-carbon logistics. Encouraging supplier and customer engagement in carbon reduction initiatives. Monitoring and reporting emissions annually to ensure transparency and progress toward our targets.

Governance and Board Approval

This Carbon Reduction Plan has been formally reviewed, approved, and adopted by the Board of Directors of Nakodar Lifesciences UK Ltd. It reflects our ongoing commitment to sustainability, compliance with UK procurement standards, and environmental responsibility.

Approved by:

Name: Ankur Mitroo

Position: Director

Company: Nakodar Lifesciences UK Ltd
